This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Physics Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.

Course Outline – Revised 3/19/20
Physics 102 Sect. 102
Spring 2020

Prof. George Georgiou
207 Microelectronics (in bridge connecting 2nd floor ECE with 2nd floor FMH)
973-596-5690 (office)
georgiou@njit.edu

Lecture and recitation for **Section 102**:
Thursday 6-8:50 Tiernan 107

ON-LINE VIA WEBEX DURING SCHOOL CLOSURE
CHECK INFORMATION ON [HTTP://IST.NJIT.EDU/WEBEX/](http://ist.njit.edu/webex/)

Office hours: send email. If needed, we can arrange for an online meeting via webex.

Course material will be sent by email before class. Additional slides will be sent after Webex class.

Pre- and Co-requisite Courses

Prerequisite: Satisfactory completion of two high school mathematics courses and two high school science courses.

Laboratory - Physics 102A

The laboratory component of the course is Phys 102A. This laboratory course may be optional for your major; confirm it with your department. If it is required for your major, it must be taken concurrently unless you have previously taken and passed Phys 102A. The grading for the laboratory is separate from the course/recitation (Phys 102) and the grades are given by the laboratory instructors. Latest edition of **Lab manual “Physics 102A Laboratory Manual”** can be purchased from NJIT Bookstore.

YOU MUST REGISTER FOR THE LECTURE/RECITATION (Phys 102) AND THE LABORATORY COURSE (Phys 102A) SEPARATELY. WITHDRAWAL FROM ANY OF THESE WILL CAUSE A SIMULTANEOUS WITHDRAWAL FROM ALL Phys 102 COURSES.

Course Materials

Textbook:

Physics - Principles with Applications, 7th ed. by Giancoli (Publisher: Pearson)

Mastering Physics Online Homework System:

Be sure that your textbook is sold bundled with a Mastering Physics student access code card. You can also buy the student access code card separately either from NJIT bookstore or online. Homework assignments will be posted on-line. Students login, download and solve the assigned problems, and submit answers to the automated grading system. Instruction can be found on the student access code card. **To enroll for this section of the course, use course ID “MPGEORGIU3102S20”.**

I will not use iClickers. Rather I will use periodic in-class exams with 1-2 workout problems to monitor progress.

Email:

NJIT email will be routinely used for announcements and to distribute material. Be sure check the NJIT email every day.

COMPUTER:

DURING SCHOOL CLOSURE, ACCESS TO A COMPUTER WITH A CAMERA AND INTERNET CONNECTION IS REQUIRED.

CAMERA ON COMPUTER IS REQUIRED FOR ONLINE PROCTORING SERVICE DURING ONLINE EXAM.

LECTURE/RECITATION WILL BE GIVEN ONLINE VIA WEBEX.

WEBEX:

DURING SCHOOL CLOSURE, LECTURE/RECITATION WILL BE GIVEN BY WEBEX.

CHECK INFORMATION ON [HTTP://IST.NJIT.EDU/WEBEX/](http://ist.njit.edu/webex/)

Attendance

Attendance at lectures and recitations is mandatory; it may constitute a portion of the final grade. Missing more than three lectures will be reported to the Dean of Freshman Studies throughout the semester and can result in failing the course. Students with absences need to discuss their extenuating circumstances for missing the classes with the Dean.

Exams

There will be **two** Common Exams and a Final Exam during the term. The exam schedule is:

Common Exam 1: Wednesday, February 19, 4:15 – 5:45 pm

COMMON EXAM 2 IS CANCELED

Common Exam 3: Wednesday, April 29,

HOURS: TO BE ANNOUNCED,

COVERAGE: EXAMS 2 and 3 COMBINED (SEE SCHEDULE)

Final Exam: To be announced

There will be no makeup exams.

DURING SCHOOL CLOSURE, EXAMS WILL BE GIVEN REMOTELY ONLINE UNDER THE SUPERVISION OF ONLINE PROCTORING SERVICE (E.G., PROCTORU). STUDENTS NEED ACCESS TO A COMPUTER WITH A CAMERA AND INTERNET CONNECTION. CAMERA ON COMPUTER IS REQUIRED FOR ONLINE PROCTORING SERVICE. DETAILS WILL FOLLOW.

Grading

Final grades will be based on a composite score for the term's work that includes **TWO** common exams, the final exam, homework score, written lecture quiz, and class participation. The approximate weights we expect to use in calculating the composite score are:

- 48 % for **two** Common Exams [**16% FOR EXAM 1, 32 % FOR EXAM 3**]
- 33 % for Final Exam
- 15 % for Homework grade
- 5 % **IN CLASS QUIZ** (take-home, conducted by email)

Extra credit may be given for active class participation, etc. Negative credit may be applied for lateness, creating noise, or otherwise interfering with class work.

The cutoff percentages for various letter grades will be in the range of 84.0% for A, 76.0 % for B+, 68.0% for B, 60.0% for C+, 52.0% for C, 44.0% for D, F below 44.0 %.

C or better grade is required to take further physics courses. If you get D in Physics 102, you cannot take the next level physics course.

Reading Assignments

The text readings are listed below. You should read the assigned sections of the text before the lecture covering that material.

Homework

It is almost impossible to succeed in this course without working a lot of problems: do the homework. Each student must download the weekly homework assignments from Mastering Physics online homework system, work the problems, and submit the solutions online before each assignment is due. Late work will not be accepted. See Course Materials section above.

Honor Code Violations or Disruptive Behavior

NJIT has a zero-tolerance policy for cheating of any kind and for student behavior that disrupts learning by others. Incidents will be immediately reported to the Dean of Students. The penalties for violations range from a minimum of failure in the course with disciplinary probation up to expulsion from NJIT. Avoid situations where your own behavior could be misinterpreted, even if it is honorable. Students are required to agree to the NJIT Honor Code on each exam. Turn off all cellular phones, wireless devices, computers, and messaging devices of all kinds during exams. Please do not create noise in class that interferes with the work of students or instructors.

Help

Students are encouraged to meet with their instructor during their office hours. Physics Department also offers tutoring as posted on <http://physics.njit.edu/>, for which students do not need to sign up but just can go to open sessions provided in the schedule.

Learning Outcomes:

For this course, you can expect to be assessed on the following learning outcomes:

1. Recall the definitions and relationships involving position, velocity, speed, acceleration, vectors, Newton's Laws, circular motion, free-body diagrams, friction, work, energy, linear and angular momentum, torque, angular velocity and acceleration, and gravitation.
2. Apply the equations governing 1-D and 2-D constant acceleration to mechanical systems for various initial conditions. Calculate unknown quantities based on physical relationships, initial conditions, and known quantities.
3. Comprehend the meaning of the equations governing net force and acceleration (Newton's Laws), and be able to manipulate them in conjunction with a free-body diagram to obtain any desired quantitative relationship. Understand the extension of these equations to rotational motion, and gravitation.
4. Generalize the concepts underlying the equations of motion, such as work, kinetic and potential energy, conservation of energy, and equilibrium.
5. Comprehend the meaning of equations governing momentum, impulse, and collisions. Apply the equations governing momentum, impulse, and collisions mechanical systems for various initial conditions. Understand under what conditions momentum is conserved and how to use this relation to calculate unknown quantities based on physical relationships, initial conditions, and known quantities.
6. Understand the extension of linear motion equations to rotational motion. Comprehend the meaning of the equations governing rotational motion and acceleration, and be able to manipulate them in conjunction with a free-body diagram to obtain any desired quantitative relationship.

2020 Spring Course Schedule for Phys 102-102

Dates	Lecture Topics	Text Reading
Thursday 1/23	Math Review, Introduction Measurement and Units	Appendix A-4, Ch 1, Sec 1-6
Thursday 1/30	Motion in One Dimension	Ch 2, Sec 1-8
Thursday 2/5 and 2/13	Vectors and Two-Dimensional Motion	Ch 3, Sec 1-6
Thursday 2/13 and 2/20	The Laws of Motion - Forces and Newton's Laws	Ch 4, Sec 1-5
Wednesday 2/19	Common Exam 1 (4:15-5:45pm)	Ch. 1 - Ch.3.4
Thursday 2/20 and 2/27	The Laws of Motion - Applications of Newton's Laws	Ch 4, Sec 6-8
Thursday 3/5	Circular motion	Ch. 5, Sec. 1, 2, 4 (excluding highway curves)
Thursday 3/12	Energy -Work, Kinetic Energy, Work-Energy Theorem	Ch. 6, Sec. 1, 3
Thursday 3/26	Energy -Potential Energy, Mechanical Energy, Energy conservation, Power	Ch. 6, Sec. 4-7, 9, 10 (excluding spring)
Wednesday 3/25	Common Exam 2 (4:15-5:45pm)	CANCELLED
Thursday 4/2	Momentum and Collisions -Momentum, Impulse, Conservation of Momentum	Ch. 7, Sec. 1-3
Thursday 4/9	Momentum and Collisions -Collisions	Ch 7, Sec. 4-8, 10
Thursday 4/9 and 4/16	Rotational Motion, Rotational Dynamics I	Ch 8, Sec. 1-3
Thursday 4/16 and 4/23	Rotational dynamics II	Ch.8, Sec. 4-8
Thursday 4/30 (Last Day of Class)	Static Equilibrium Law of Gravity	Ch. 9, Sec. 1-4 Ch. 5, Sec. 5-7
Wednesday 4/29	COMMON EXAM 3 (HOURS: TO BE ANNOUNCED)	COVERAGE COMBINES EXAMS 2 AND 3: CH.3, CH.4, CH. 5.1- 5.4, CH. 6, CH. 7, CH 8.1-8.8
Date to be announced	Final Exam	Everything learned in class

* The professor will discuss changes to the syllabus during class if they arise.

Thursday 3/19 -- Spring Break – No Class
